- Ideas to post offers & wants:**
- Take one category at a time
  - Can you offer anything there?
  - Do you want anything from it?
  - Give help that you like doing
  - Get help with what you hate doing, or don't have time for
  - There is no stupid offer or want
  - Add item's picture, if you can
  - Keep it short and clear
  - Get inspired from other posts
  - Keep adding items, it's free
  - Select 2-3 categories for each item you post, it helps finding it.
  - Be mindful of your limitations
  - Do not overcommit or overbook.
  - Post 3 offers + 3 wants and **get CC500 to spend right away**
  - Keep the currency circulating, you are only allowed to save up to CC500 in your bank.
